

DigitalForge Pro AI Dashboard

Welcome! You're three quick steps from your first collection.

STEP BY STEP

Activate & Set Up

1**Open the Dashboard**

Go to digitalforgepro.ai/dashboard in Chrome, Firefox, Safari, or Edge on a laptop or desktop computer.

2**Enter Your License Key**

On first visit you'll see an activation screen. Paste the license key from your Gumroad receipt (also emailed to you). You only do this once per browser — it's remembered after that.

3**Add Your Claude API Key**

The Dashboard uses Claude AI to generate your prompts and listings. Create a free key at console.anthropic.com, then paste it when prompted. Your key is stored locally in your browser and never sent to our servers.

ABOUT API COSTS

Claude's API is pay-per-use, billed by Anthropic directly. A typical generation costs about \$0.05–0.25 depending on how many products you generate and which model is used. This is separate from your one-time Dashboard purchase.

MAKE SOMETHING

Your First Collection

Fill in your niche, art style, AI image tool, collection name, and creative vision → click **Generate** → preview and edit your prompts and listings → download everything as a ZIP (Prompts CSV, Listings CSV, and Pinterest descriptions). The **Prompt Player** and **Batch Scaler** are built in for the steps that come after generating.

✓ FREE BONUS INCLUDED

Your purchase comes with the **Brand Email Setup Guide** — a comprehensive walkthrough for setting up a professional branded email address (e.g. hello@yourshop.com) using Cloudflare and Gmail, with no paid email hosting. Download it from your Gumroad receipt.

SUPPORT

Need Help?

Email norm@digitalforgepro.ai — we respond within 24 hours. Most first-time questions are about the Claude API key step, so don't hesitate to reach out if anything's unclear.
